

Name:

Κατανόηση κειμένου – Science:	06 X 0,5 point = _____ / 3,0
Κατανόηση κειμένου – The Prince and the Snake:	08 X 0,5 point = _____ / 4,0
Έκθεση – Story: 'A strange dream'	5 points = _____ / 5,0
Γραμματική/ Λεξιλόγιο -Matter:	10 X 0,5 point = _____ / 5,0
Γραμματική/ Λεξιλόγιο - Choose A, B, C, or D:	12 X 0,25 point = _____ / 3,0

Total Score: _____/20

Part 1a: Reading comprehension

Section A. Read the following text about **science**

Are sentences 1-6 Right (A), Wrong (B) or Doesn't say (C)?

To be a scientist you can't only study science from books, you must do experiments in the laboratory to test your ideas and make discoveries. Science is a practical way of understanding the world. Scientists make observations and measurements and then they try to explain their observations with theories. Next, they test their theories with experiments. If the experiments prove that the theory is correct then the scientists have made a discovery that can lead to a new invention.

Practical work with scientific equipment makes science interesting and exciting, but there are dangers if people do not take care while they do experiments. Safety is very important. To stay safe, we must think about what things could hurt us. We must always keep our laboratory table neat and clean. It must not be untidy. We have to wear gloves and lab goggles. The place must be well-lighted and the floor free from any obstacles that can make us tumble and fall.

1. It is not enough to study books to be a scientist.
A. Right B. Wrong C. Doesn't say
2. First you must make a new discovery and then make observations and measurements.
A. Right B. Wrong C. Doesn't say
3. Children should avoid the experiments because they are dangerous.
A. Right B. Wrong C. Doesn't say
4. We must put on special protective gear before we do an experiment
A. Right B. Wrong C. Doesn't say
5. If the laboratory is in a mess we can have an accident.
A. Right B. Wrong C. Doesn't say
6. The obstacles can help us make a new discovery.
A. Right B. Wrong C. Doesn't say

Part 1b: Reading comprehension

Section B. Read the following story about **the Prince and the Snake**

Are sentences 1-8 Right (A), Wrong (B) or Doesn't say (C) ?

The kingdom of Benis had a wise and kind King. People were happy. But the King himself was sad and worried. A devilish snake had entered his son's body. Neither medicine nor magic worked to cure his son.

When the Prince grew up, he thought, "It is because of me that my father is worried." And one day, he left the palace. Wandering, he came to another kingdom. He found an empty building and started living there. He begged for food.

The King of that kingdom was hard working but cruel. He had a kind and beautiful daughter. The King was unhappy with his daughter. That girl was always ridiculing her father's hard work. The King thought, "She is always talking to me low of my hard work. I must marry her to a beggar. Then she will know what hard work is."

So they got married and one day when her husband went to sleep the Princess was searching for food. When the Princess came back, she was shocked to see a snake sitting on her husband's mouth. She was not scared. She bravely asked the snake to leave and when it refused she killed it.

When her husband woke up, she told him about the snake. The Prince was happy. Then he told her who he really was. They set off to the Prince's palace. The King of Bevis was delighted to see his son. When the King learned that the devilish snake was killed, his joy knew no bounds. The Prince and the Princess lived happily for a long time.

1. An evil magician put the snake in the Prince's body.
A. Right B. Wrong C. Doesn't say
2. The people of Benis were delighted and cheerful.
A. Right B. Wrong C. Doesn't say
3. The king of Benis was hard working but cruel .
A. Right B. Wrong C. Doesn't say
4. The Prince left the palace because the king didn't love him.
A. Right B. Wrong C. Doesn't say
